To whom it may concern:

We operate a recycling crusher at 6695 S. Wasatch Blvd. in Cottonwood heights. We recently received a letter from the SLVHD Salt Lake Valley Health Department stating that we needed to have a permit and financial assurance for reclamation of the property after closure as required by the Utah Division of oil, gas, and mining. After a phone call to your office and a discussion that we do not mine, we crush only asphalt, concrete and granular material that is imported to us. Our location is in an old gravel pit that we cannot mine, we just stockpile imported material. The land owner (The old A.J. Dean Gravel pit) is responsible to reclaim the pit. The gentleman I spoke with told me that we would not fall under your jurisdiction as we do not mine. He recommended that I write this letter to you for the purpose of obtaining written response from you stating such. If you need more information please feel free to contact me.

Thank you,

Dan Frost
